DETAILED ACTION

This application is a continuation of U.S. Application Serial Number 09/277,575, which claims the benefit of the filing date of provisional applications 60/082,250, 60/101,580 and 60/094,519.

Claims 1-144 have been canceled.

New claims 148-150 have been added.

Claims 145-150 are currently pending and are the subject of examination in the present Office Action.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 1, 2007 has been entered.

In view of Applicant's response filed November 1, 2007 no outstanding ground of rejection is maintained.

The following represent new grounds of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 145-147 and 149 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 145 is ambiguous and unclear in the recitation of "lymphoma's including Hodgkin's lymphomas, lymphocytic lymphomas and leukemias." The term "lymphoma's" is not the plural form of lymphoma and leukemias are not lymphomas.

Art Unit: 1644

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 145-147 and 149 are rejected under 35 U.S.C. 102(a) as being anticipated by Vidovic et al (Cancer Letters [1998] 128(2):127-135; U on form PTO-892, newly cited).

The claims are drawn to inducing the death of tumor cells by administering an anti-HLA-DR antibodies. Vidovic teaches the anti-HLA-DR monoclonal antibody 8D1 (see entire reference). Vidovic teaches that 8D1 is highly selective in its ability to kill tumor cells and does not affect non-tumor cells (Abstract in particular). Vidovic further teaches the utility of the 8D1 monoclonal antibody for the treatment of HLA-DR+ malignancies including multiple myeloma, lymphomas and leukemias (page 134 in particular). The prior art teaching anticipates the claimed invention.

Conclusion

1. Claims 148 and 150 are allowed.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
